

## Intermediate Bulk Containers & Dispensing Systems

**A New Era  
of IBCs...**

**Intermediate Bulk Containers are available in 500litre to 2,500litre capacity. The bin is manufactured from rotationally moulded polyethylene with galvanised frame and stainless steel contact parts.**

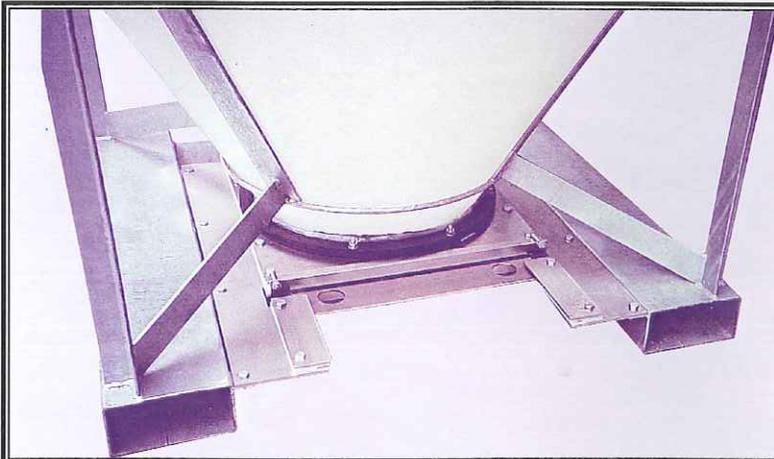

## Filling Lid

Hinged lid assembly fixed to IBC incorporating weatherproof seal and over centre clamp for ease of operation.

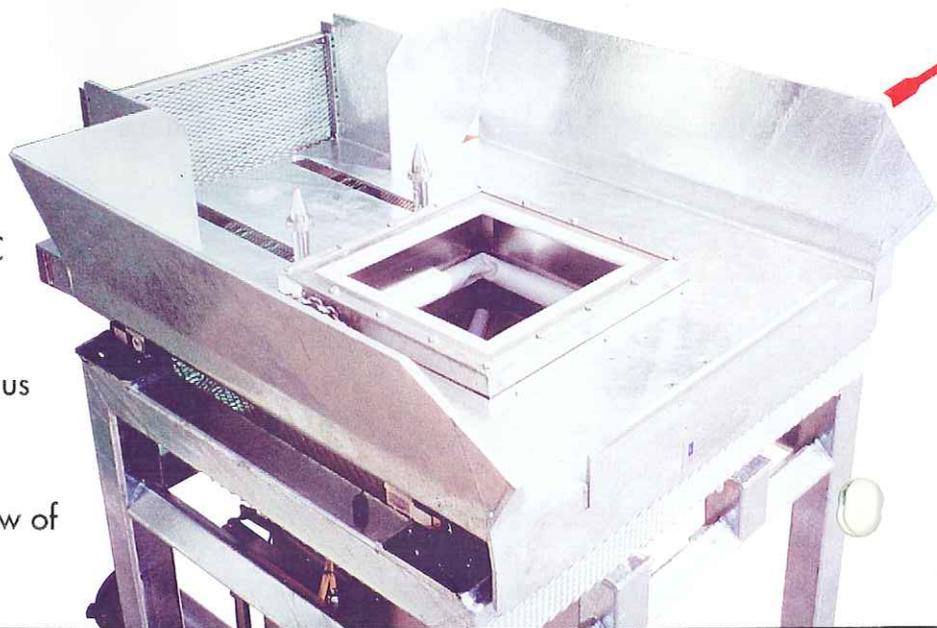

## Discharge Valve

Stainless steel slide valve outlet with positive closing.  
Heavy duty frame with forklift pockets.  
All stainless steel contact parts to food grade standard.

## Discharge Station

- Heavy duty construction with IBC locators and station seal to base of IBC for dust tight engagement.
- Automated discharge mechanism with positive valve open/close operation, plus three positions for full, medium and dribble feed.
- Electric vibrator to promote product flow of the most cohesive powdered products.

# DISPENSING SYSTEMS

IL
